

SELF-REPORTING ERRONEOUS EVENTS

Purpose: This form is for the reporting of erroneous events and CAT reporting errors that are not identified in data integrity validations, and that fall outside the scope of sections 7.6 (Corrections) and 6.4.3 (Deadline for Firm Initiated Corrections and Deletions) of the CAT Reporting Technical Specifications for Industry Members.¹ Repairs, Corrections and Deletions submitted by 8 am ET on T+3 should not be reported to FINRA CAT on this form. CAT Reporters can submit Part I of this form upon discovery of the erroneous reporting and provide supplemental information in Part II of this form as it becomes available.

Reporting errors on this form is not an independent requirement under SRO rules; however, under SRO Rules Industry Members are required to report accurate information and regulators may consider a CAT Reporter’s self-reporting of errors and correcting such errors a mitigating factor in the event of any regulatory actions related to the firm’s CAT reporting. Information received through this process will be provided by FINRA CAT to the regulators on a periodic basis or as requested. For more information on this Form see CAT Alert 2020-04, *Standards for Self Reporting Erroneous Events To FINRA CAT* at <https://www.catnmsplan.com/cat-alerts>.
